To Whom It May Concern

UK & EU REACH

In accordance to article 33 of the REACH regulations, any supplier of an article containing a substance on the candidate list in a concentration above 0.1% (w/w) shall provide the recipient with sufficient information to allow safe use of the article, including as a minimum, the name of that substance.

Following the review of the updated UK Reach SVHC on 15th June 2026 we hereby declare that, based on information provided by our suppliers and our current knowledge, none of the products supplied by our company contain substances included on the current EU and UK REACH Candidate List of Substances of Very High Concern (SVHC) at concentrations above 0.1% (w/w) per article, in accordance with Article 33 of Regulation (EC) No. 1907/2006 (REACH).

This declaration is based on the latest available REACH Candidate List at the time of issue and will be reviewed and updated as necessary following any future changes to the Candidate List.

We do not intentionally introduce any other substances that are listed on the REACH Candidate List of Substances of Very High Concern (SVHC) into other products and raw materials used within our range.

Please do not hesitate to contact us if you require further information.
